

GURJINDER SINGH

Student Association Nominee

Vice-President Finance and Administration

I am a first-year student here at the College. I am basically from Punjab, India, a place rich in culture and history. I am pursuing my associate degree in science here at the college. I want to become a geochemist in the future as this is my passion to study about earth and its functions. At my high school, I was elected as a president and served my school for 1 year. I think that experience will help me a lot here.

I am excited to announce my candidacy for the position of Vice President in the upcoming college elections. With a passion for leadership and a commitment to serving our college community, I am dedicated to making a positive impact during my time here.

I have skills like leadership, interactive communication and decision making which I think are very necessary for this post.

Even after high school, I worked part time at a local institution as a finance manager and I think here I can learn a lot of new things which will be very beneficial for me in the future.

Outside of my academic commitments, I am passionate about games and reading books. Whether it's academics or outdoors, I find solace and inspiration in pursuing these interests. They have not only helped me unwind and stay balanced but have also honed my leadership and teamwork skills.

I am approachable, open to feedback, and eager to work collaboratively with all the students.

I kindly request your support and vote in the upcoming election. Thank you!
